

# Beat the price rise and beat the VAT increase at Shelbourne Toyota

A RECENT announcement from Toyota GB stated that the majority of the Toyota range is to incur major price increases from December 1, 2009.

The increases made by Toyota GB are in line with the automotive industry today and follow many competing manufacturers that too have raised/or intend on raising prices.

In addition to this it is widely expected that the VAT rate (currently 15%) will increase to a minimum of 17.5% from 1st January 2010, again adding yet more to the price increase made by Toyota GB.

### Toyota vehicles affected

The imminent price increases will see a new Toyota Auris increase by £739, a new Rav4 increase by £675, a new Verso increase by £600 and a new Aygo increase by £299 - these are just a selection of the vehicles affected.

### Now for the Good News!

To beat these increases any new model\* ordered with

Shelbourne Toyota between 07/10/09 - 30/11/2009 and registered by 31/12/09 will be protected against these price and VAT increases.

"We urge anyone who maybe planning a new Toyota purchase to

act now", comments Richard Ward Director at Shelbourne Toyota. "We expect delivery dates to get longer as we envisage order take to be high in advance of these imminent increases".
